

LSA Profile Checklist for Personal Injury Firms

15 checks to run on your Google Local Services Ads profile this week

WHAT GOOGLE SAYS IT RANKS ON

- ☐ **Google Screened badge** is active, and every attorney's license and background check is current
- ☐ **Bid strategy** matches your goal (maximize leads or set cost per lead), and the budget doesn't run out before the end of the day
- ☐ **Star rating** compared with the top 3 firms showing in your main city
- ☐ **Number of reviews** compared with those same 3 firms
- ☐ **Response time:** you answer LSA calls and messages within minutes, not hours

WHAT GOOGLE DOESN'T PUBLISH FIELD EXPERIENCE

- ☐ **Proximity:** where your office is versus where your best cases come from
- ☐ **Business hours** in the profile match when someone actually answers the phone
- ☐ **Complaints:** no unresolved serious or repeated complaints tied to your profile

YOUR PROFILE

- ☐ **Case types** selected match the cases you want, and exclude the ones you don't
- ☐ **Service area** covers the cities you want, and nothing you can't serve
- ☐ **Photos** are real photos of your team and office, not stock images
- ☐ **Business name** matches your real-world name, with no added keywords

YOUR LEADS

- ☐ **Last month's charged leads** reviewed: which ones Google credited automatically, and which still look invalid
- ☐ **Answer rate** on LSA calls checked (missed calls cost you leads and ranking)
- ☐ **Review requests** go out steadily after case milestones, not in batches

Want us to run this for your firm? We'll also map the nearby cities where you can win LSAs with the fewest stronger competitors. Book a 30-minute LSA Market Audit: [\[booking link\]](#)
